I have just returned from a tour in the northern part of the Territory. Passing through Leavementh yesterday I learned the particulars of a new and memorable outrare which occurred in the town of Atchison on Saturday, last, prosenting the usual features of "National Democracy". Blue Lodges, bowie knives, Border Rufflians, and unlimited "fire-

ment as I obtained them from a prominent citizen of Leavenworth, who was an eye-witness.

A Free State Couvention was called at Atchison on Saturday to cleet Delegates to the Grasshopper Palls Convention. Gen. Lane had been invited to be present and speak and had consented to do so.

Three-fourths of the town of Atchison belongs to Pree State men, but the proportion of Rufflans and Pro-Slavery stabbers and terrorists is probably arger than at any other point on the river; and the Jarger than at any other point on the river; and the facility for recruiting from the superabundance in Platie county, renders it very doubtful ground for Free State demonstrations. Hardly was the announcement of the convention and the appearance of Lane promulgated, when the Atchison banditti collected at a "big drunk" and swore by all the powers in the Pro-Slavery mythology that no Free State convention should be held in the place, and particularly that no Free Soil speech should ever be made there by Jim Lane. Various minor threats

The Ruffians did the same, and for a moment bloodshed and general carriage seemed likely to be the result. And to put the case differently, this piece of property may have been sold the next year to some one alse for \$25,000, and the next year to another man for \$30,000, and last year to a third man for \$35,000. The aggregate of mortgages in such a case might not be less than \$60,000; and according to the logic of the Repister, the property would be sunk under a mortgage of

This is large talk for a village editor who has tee of Conference, of the two Houses of the Convention to form a State Constitution, has been in daily session for some time p.st, in the Secretary's room of the Capitol, endeavoring to accommodate the difficulties between the two branches, so as to unite upon the submission of only one Constitution to the people. As we announced yesterday, on Monday this object of compromise failed, owing mainly to the insulting and unaccomodating spirit exhibited by Gov. Gorman.

But yesterday, the Committee again met, to

population and buildings in Chicago, would make two such towns as Sandusky. The assessed valuation of this city is no criterion at all, of the actual value of the aggregate property. Lots which will command \$1.000 per foot, cash down, are assessed at \$200 on the tax list; and men possessing personal property to the amount of \$100,000 are put down at \$10,000! The Register man must remember the mode of assessment, under the old tax law in Ohlo, when lands worth forty dollars per acre were valued at six, and houses worth \$10,000 were returned at \$2,000;

would inform him, that the annual Increase of population fast buildings in Chicago, sould make few methors, as Sanduaky.

The assessed valuation of the let jut no criterion at all, of the assental value of the superior to the compared of the property to the annual of a 100,000 are applied to the compared of the compa case each man who sold, actually made \$5,000; the sums due between the parties are not half the apparent incumbrance, while the actual incumbrance is only the amount due from the last purchaser which may be less than half what the property would fetch, at a forced sale, for cash down.

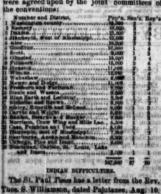

Again: A man owns a lot worth \$50,000 on which there is no debt, and he desires to creet upon it a beautiful block which will reat for \$12,000 per year. But he has not the cash with which to build. He borrows from some Eastern capitalist \$40,000 for six years, and exacutes a mortgage upon the lot to secure the lender. With the money he improves the property; from the rents of the building he pays the interest on the loan, the taxes and insurance, and with the surplus creates a sinking fund by which he cancels the mortgage, even before the expiration of the time for which he borrowed the money, and then holds clear of all incumbrances a property, worth perhaps, \$150,000.

EXPENTION AGAINST THE CHIPTEWAS—The St. Paul Light Cavalry have been called out, by Gov. Medary, to make an incursion about fifty miles north-east of this city, to the neighborhood of Cambridge, when they expected to encounter a host of swarges, the picked warriors of the Chippewa tribes, who are reported to have been lately engaged in thieving operations in that vicinity. The company number about thirty, all valliant looking men, but dressed rather gaily for a war party. Their uniform was a red coat and white pants, and their arms, heavy swords and army pistols.—The Commissary Department was well supplied with stores for the inner man; and they are likely to have a good time, if they can only manage to keep clear of the Indians. Capt. James Starkey had the command. They were to halt last night at Columbus, about 25 miles distant from St. Paul.—St. Faul Piener, 25th.

Her Appeal from the Surrogate's Decision—Her Finances, Hignes, Prospects and Condition—She may Become on Author.

[From the New York Herald.]

Mrs. Cunningham reiterates to our Reporter who called upon her yesterday, her determination to appeal from the recent decision of the Surrogate. She has employed or retained rather, Judge Dean, as her counsel in the case, and is preparing a bettion of appeal in regular. Wheeling (Va.) Intelligencer of the 22nd:

"We learn from a gentleman just arrived from Marshall County, that on Monday last, the barn of Mr. Wm. Henry, on Fish Creek Hills, near Belton, was struck by lightning. Three men were killed, and the barn and its contents totally destroyed. The men were engaged in throebing with a machine inside the barn, when the electric finit struck the cylinder of the thresher. John Neely and Joseph Young were instantly killed. There were some half dozen persons in the barn at the time, among them Mr. Henry himself, whose injuries by the shock have resulted in his death. This unlooked for accident, which deprived the community of three of its best citizens, has cast a gloom over the whole neighborhood."

"We are reliably informed that on Monday last a young girl named Earlwine, whose father resides on Fish Creek Hills, in Marshall County, committed saiselde by hanging. The cause rather, Judge Dean, as her counsel in the case, and is preparing a potition of appeal in regular order to the Supreme Court. This petition the statute allows her thirty days to present, and she feels in no hurry about the matter except to get it presented in time. Four Thousand Dollars in Counterfeit Mon-cy, and Fire Hundred Dollars Worth of Jewelry Seized in St. Louis.

In St. Louis, on Cass Avenue, a day or two ago, two men, Geo. Brosson and Inadore Besse-deck, were arrested, and in searching the house the officers discovered, yesierday's Eader says, secreted jewelry, consisting chiefly of ladder broaches, lockets, pine, bracelets, &c., sufficient to fill a half bushel basket, and worth probably from \$500 to \$600, also bundles of new con-terfeit bills done up quite professionally, and "ready for trade," to the amount of over \$3,800.

she feels in no hurry about the master except to get it presented in time. As the case will have to be argued before three Judges at a General Term, it is not probable that it can come up for a hearing before next November. Meantime she intends to wait with the utmost patience, hoping justice will be meted to her in the form of a reversal of the decision of the Surrogate. Should the issue be adverse, however, she will push the appeal farther, and if necessary, to the Court of last resort. She has, strong hope of finally carrying her point—it matters not to her if the hairs of Dr. Burdell exhaust the balance of his estate in warring against her—what she wants, is not money, but to be acknowledged by the world as justicy entitled to bear the name of her "dar hanks and Harvy Burdell."

As for the decision of the Surrogate, Mrs. Cunningham says she did not tread it entirely through. She glanced over it and saw the points of the argument, and that was all. The argument she thinks a very filmsy one, and says if she chose she could riddle it so completely that it could not by any possibility hang together. She asserts that she can bring forward witnesses to prove that Dr. Burdell spoke to a certain clergyman in this city, (not Dr. Marvine,) whose name shall be made known at the proper time, announcing to him his intended marriage to her, and saking him to perform the marriage coerenooy,

Relative to Dr. Catlin, Mrs. Cunningham explains that her acquaintance with him began by having occasion, while she resided in Brooklyn, to call him to attend a member of her family physician. Dr. Catlin had called at her house occasionally since, but only as a visitor. She desied that sunyhing had ever occurred between them that placed him in her power or gave him an advantage over her. She never said she had him under her thumb. She defied the whole world, indeed, to say aught against the purity of her life, or cast an imputation upon her constitution. Symptoms of dropsy begin to show themselves in her limbs, and she is troubled mor

The Rio Grands vote puts White (Democratic candidate for and Commissioner) so far ahead that his election is rendered almost certain. A Violary Tornado in Outor—From the officers of the steamer Ohio No. 2, we learn that during her last upward trip on Friday the 21st, when-twelve miles below Galilopolis, she encountered a heavy storm, attended with an exceedingly high what, amounting to a tornado, and the most terrible thander and light nag. For a few minutes it seemed as if nothing could withstand the raging tempest; large forest trees were prostrated like reeds, and a number of barns and out-house were blown from their places by the sheer force of the wind. A man drivings hay wagon, named Wm. T. Harrison, was struck by lighting and instantly killed, as were four horses at the same time. A farmer named Wisson, was also injured and stunned by the fluid, but not fatally, and fourteen sheep were destroyed. There are some curiosities in this census which we shall notice further on another occasion. It is a singular fact that of the colored population 271, nearly one-third, if the statistics are correct, should be found in two counties—Dubuque 36, Fayette 44.

One acre of potatoes in Calhoun county produced 418 bushels.

It is also remarkable that of the whole number of inhabitants, those for whom the nativity of "Ohio" is given in 90,032, nearly equal to the whole native population, 93,302.

The German population exceeds the Irish nearly 8,009, being 28,644 to 20,896.
